- * FreeLife's Compensation Plan: The Power is not any one thing... it is the WHOLE. It is truly balanced - tremendous upfront bonuses driving massive long-term income. You will not find a more lucrative compensation plan in the industry - NO EXCEPTIONS - for MEs who are engaged and leading by example. Our compensation plan is designed for the average person... so that ANYONE, from any background, who has a desire to succeed, can absolutely do so... without incurring debt or being forced to purchase more products than they need for their own personal use. This is what makes FreeLife an extremely legitimate opportunity... because commissions are based off of every ME's purchase of products they benefit from, and they want to order each month. Simply purchase the products you like, share that concept with others, and build a stable, built-to-last income stream that comes to you month after month, year after year.

- * Mission Driven: "To serve each other by promoting good health, well-being, and the opportunity for an abundant life." The FreeLife Co-Founders, Ray Faltinsky and Kevin Fournier, put the distributor's long-term welfare above everything else.... every decision they make takes into account the effect it will have on the long-term, not the short-term. Kevin is currently seated on the DSA Board and Ray was prior to that. Truly "Built to Last". TRUST where FreeLife is going because of their tremendous track record.
